

New 4G Aluminium Football Goal Section

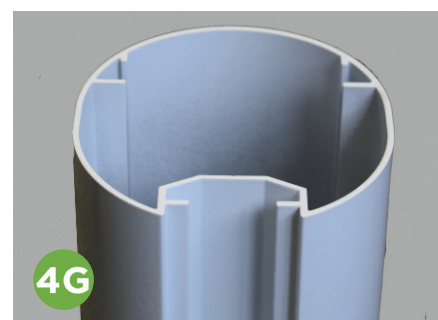

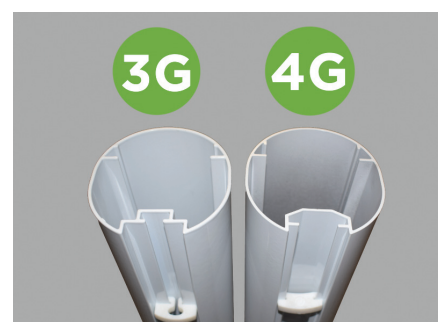

Features

Introducing Harrod Sport's 4G Aluminium Football Goal Section, designed to give the same industry leading qualities of the Harrod Sport 3G Football Section but to meet the requirements of the latest European Standard EN 16579 which has stricter head, finger and torso entrapment criteria.

Specifications:

- Harrod Sport's innovative 4G Goal Section and jointing method is protected by Patent Pending GB1909105.7.
- The section includes a new net clip design that locks the net into the section with a secure tight-fitting action.
- The versatile extrusion design can be joined with either an internal box section or laser cut plates.
- Channel has changed from 25mm to 8mm to conform with EN 16579.
