

Portable Team Shelter

Harrod Sport's new Portable Team Shelter is the perfect mobile, self-weighted dugout for multi-sport facilities such as clubs, universities and schools. This portable dugout is available in a variety of colours and can be personalised with the inclusion of your school or sports team's logo.

Features

- Available in 2, 4, 7 and 10 seat versions.
- Injection moulded polypropylene superior bucket seats.

Specifications:

- Made from 80mm aluminium with bespoke internal extrusions.
- 3mm thick clear Polycarbonate side and back sheets.
- Aluminium composite lower side panels for added strength.

- Ballast integrated into shelter side-frame (larger ballast options are available)
- Polyester powder coated grey c/w black seats (as standard).
- Other colours are available at an extra cost.
- Bolt on quick release anchor for securing in non-permanent ground screw or permanent fixing.
- Further bolt on ballast available to ground socket/fixings.
- Shelters must be anchored at all times – a Turf Screw Insertion Tool (BAR-031) is required when purchasing this product.
- Bespoke options available.

Portable Team Shelter
